## WHAT IS GENDER EQUALITY?

Gender equality means that the various behaviors, aspirations, needs of women and men are respected, taken into account, valued and equally aided. This means that their rights, responsibilities and opportunities will not depend on whether they are born as a man or as a woman.

This means that women and men are on the same wavelength!

# GENDER EQUALITY IN OUR COUNTRY

Macedonia is country where gender equality is on medium degree.

Macedonia has adopted several laws and mechanisms to advance gender equality. The Law on Equal Opportunities of Women and Men obliges public institutions to ensure equal rights and opportunities for women and men and to integrate gender into their policies, strategies and budgets through specific measures to reduce gender inequality.

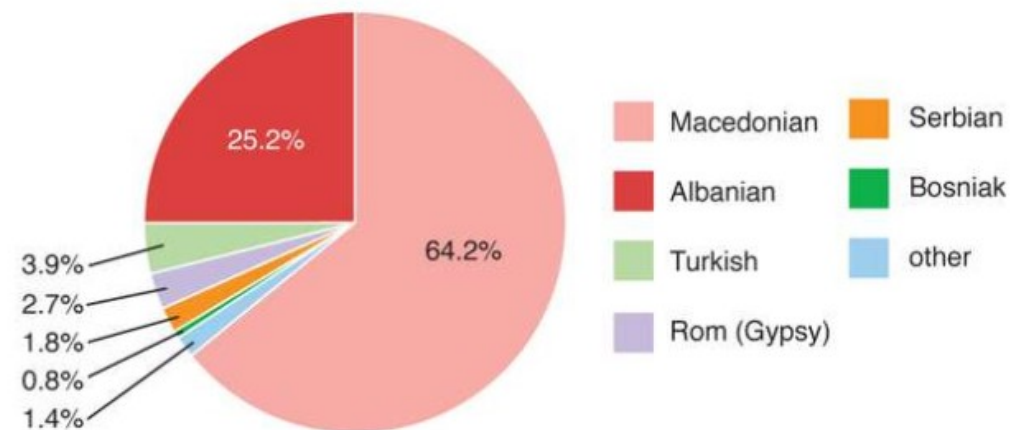

Men and woman are equal but there is also places in our country where women have not the same rights like men.

In our country especially, woman are good at their jobs, they can pursue whatever they want.

But Macedonia is trying to make equal place for living for everyone!

In Macedonia live more ethnic group such as : Albanians, Turks, Vlachs, Roma, Serbs, Bosniaks, Bulgarians and they are treated the same as the Macedonian population.

**Ethnic groups**

God created  
people equal and  
so they should be  
treated equally!

**WE BELIEVE IN  
GENDER EQUALITY**

In our country there are almost equal gender in many social activities as doctors, teachers, surgeons work both women and men.

Bitola is small city, where everyone knows each other and respects. That means that there haven't discrimination and inequality.

Especially women are equal to men without exception, go out with friends, do the job they love, enjoy life.

Equality is main thing of all, but Bitola knows that and make women and men feel equal.

## The “Manaki Brothers” festival always sends a strong message for gender equality

Rumors are beliefs which are not based on facts, but on the fact that a lot of people believe in them. Through them, the harmful stereotypes and prejudices against women are spread and firmed.

The “Manaki Brothers” festival always sends a strong message for gender equality, and it is our honor that the number of female authors at the festival, both directors and cinematographers, is constantly growing.

# GENDER EQUALITY IN SCHOOL

In the past girls weren't allowed to go school and study. Only boys could education and work. Girls were only for chores.

Fortunately, today more girls are now in school compared to 15 years ago. They can study whatever they want and find work.

# GENDER EQUALITY IN JANE SANDANSKI

In our school boys and girls feel welcome in a safe and secure learning environment. Governments, schools, teachers and students all have a part to play in ensuring that schools are free of violence and discrimination and provide a gender-sensitive, good-quality education.

Teachers treat students equally, without discrimination. Without judgment on appearance, material condition, religion, affiliation.

# CONCLUSION

Besides the physical differences between men and women they shouldn't be seen and valued by what gender they define as, they should be respected and treated **EQUALLY!**
